

# City of Mannford

*on Keystone Lake*

You will be glad to know you are living in a rural community that has one of the finest Volunteer Fire Departments in Oklahoma. Mannford Fire Department has an ISO rating of 4/4Y. Less than 10% of the fire departments in Oklahoma have achieved this high rating.

There is a definite advantage to being a member of our fire subscription. As a member, you will receive our ISO rating 4/4Y depending on your exact location. State Question 36-4809 states that insurance companies cannot give discounted insurance rates unless the property owner is a member of the fire subscription service. Without it, you could receive a higher rating from your insurance carrier which could mean a higher insurance rate.

Members who have a fire will not be billed for the first call in a calendar year. Any other calls will be billed to the insurance company, but the homeowner will not be billed for the deductible. Non-members could be billed the standard rate of \$750.00 for the first hour and \$400.00 for each hour after per truck. **MEMBERS PAY NOTHING OTHER THAN THEIR MEMBERSHIP DUES.** There are two options the homeowner can choose from: Pay monthly through Indian Electric Company or pay yearly directly to Mannford Fire Department. IEC will add the monthly premium to the member's IEC bill each month.

Dues are as follows:

1 - 10	acres	\$6.00 per month / \$72.00 per year
11-80	acres	\$8.00 per month / \$96.00 per year
81-120	acres	\$9.75 per month / \$117.00 per year
121-320	acres	\$12.00 per month / \$144.00 per year
321-640	acres	\$14.50 per month / \$174.00 per year
Over 640	acres	\$18.67 per month / \$224.00 per year
